Teacher answers & working

Area and Perimeter of Rectangles · Compound Shapes

GEO-D993-L2 · Student pages 1-3. Print at 100%, single-sided. Cut on dashed lines.

SA1

Find the area of this compound shape.

Answer:

64 cm^2

Working:

Split the shape into two rectangles.

Bottom rectangle area = 13 × 3 = 39

Top-left rectangle height = 8 - 3 = 5

Top-left rectangle area = 5 × 5 = 25

Total area = 39 + 25 = 64

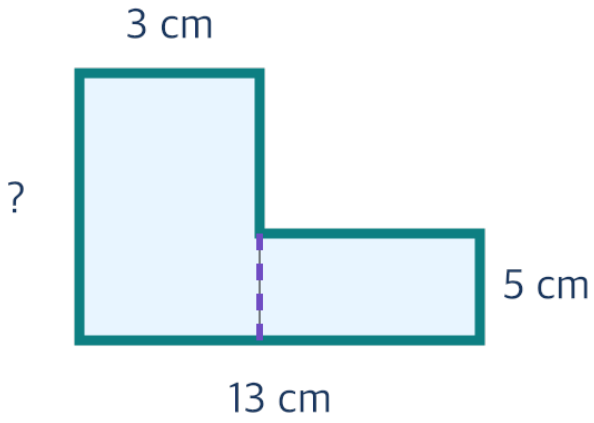

So the area is 64 cm^2.

SB1

The total area is 77 cm^2. Find the total height.

Answer:

9 cm

Working:

Bottom rectangle area = 13 × 5 = 65

Remaining area = 77 - 65 = 12

Extra height = remaining area ÷ top width

Extra height = 12 ÷ 3 = 4

Total height = 5 + 4 = 9

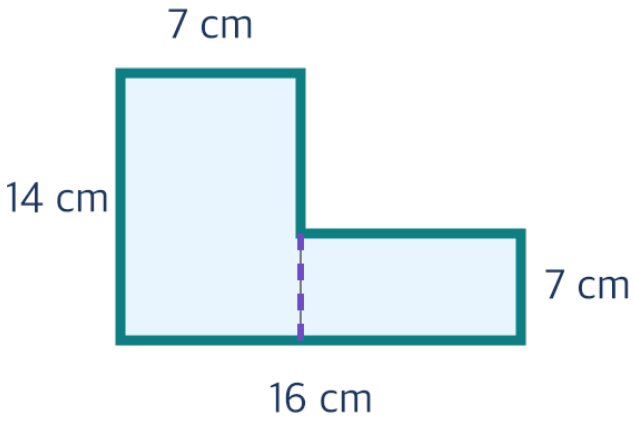

So the total height is 9 cm.

SC1

A kitchen tile pattern has this shape. Find its area.

Answer:

161 cm^2

Working:

Split the kitchen tile pattern into two rectangles.

Bottom rectangle = 16 × 7 = 112

Upper rectangle height = 14 - 7 = 7

Upper rectangle = 7 × 7 = 49

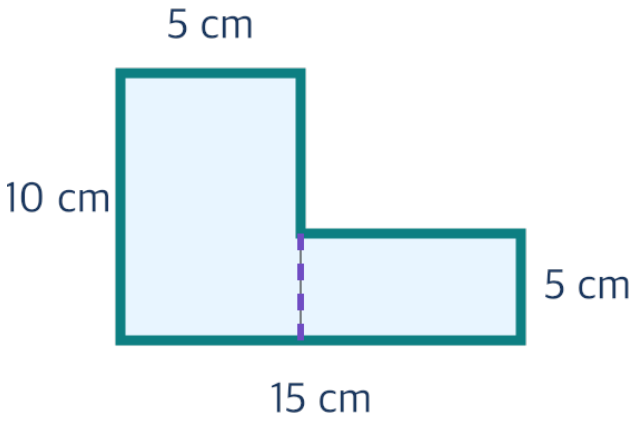

Total area = 112 + 49 = 161 cm^2

GEO-D993-L2 · Student pages 1-3. Print at 100%, single-sided. Cut on dashed lines.

SD1

Find the area of this compound shape.

Answer:

100 cm^2

Working:

Split the shape into two rectangles.

Bottom rectangle area = 15 × 5 = 75

Top-left rectangle height = 10 - 5 = 5

Top-left rectangle area = 5 × 5 = 25

Total area = 75 + 25 = 100

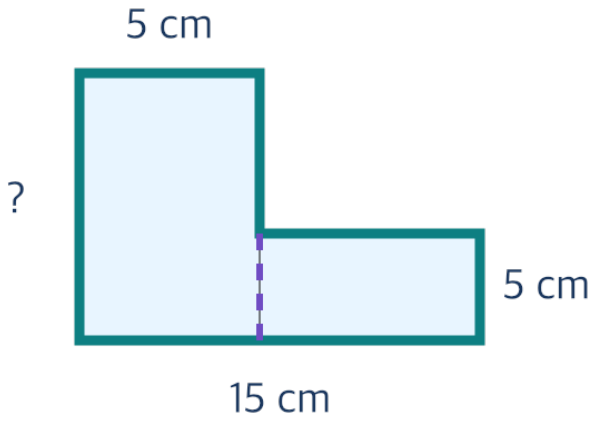

So the area is 100 cm^2.

EA1

The total area is 95 cm^2. Find the total height.

Answer:

9 cm

Working:

Bottom rectangle area = 15 × 5 = 75

Remaining area = 95 - 75 = 20

Extra height = remaining area ÷ top width

Extra height = 20 ÷ 5 = 4

Total height = 5 + 4 = 9

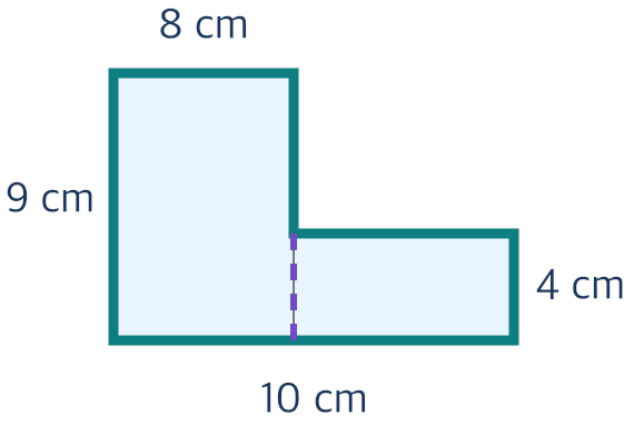

So the total height is 9 cm.

EB1

A kitchen tile pattern has this shape. Find its area.

Answer:

80 cm^2

Working:

Split the kitchen tile pattern into two rectangles.

Bottom rectangle = 10 × 4 = 40

Upper rectangle height = 9 - 4 = 5

Upper rectangle = 8 × 5 = 40

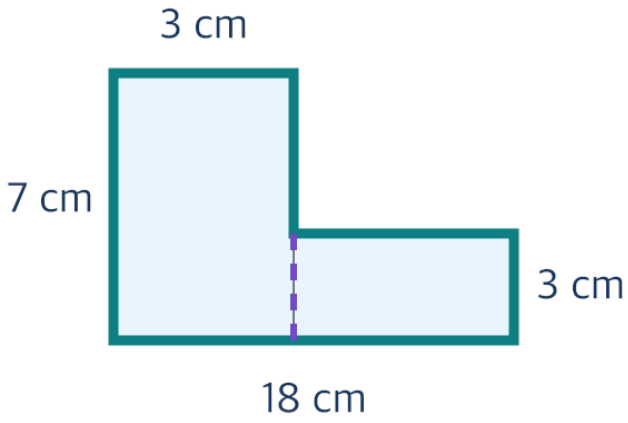

Total area = 40 + 40 = 80 cm^2

EC1

Find the area of this compound shape.

Answer:

66 cm^2

Working:

Split the shape into two rectangles.

Bottom rectangle area = 18 × 3 = 54

Top-left rectangle height = 7 - 3 = 4

Top-left rectangle area = 3 × 4 = 12

Total area = 54 + 12 = 66

So the area is 66 cm^2.
