Teacher answers & working

Area and Perimeter of Rectangles · Algebraic Area

GEO-D993-L3 · Student pages 1-3. Print at 100%, single-sided. Cut on dashed lines.

SA1

Write and simplify an expression for the area.

Answer:

$2x + 14$ cm^2

Working:

Area = length × width

Area = 2(x + 7)

Area = 2x + 2 × 7

Area = 2x + 14

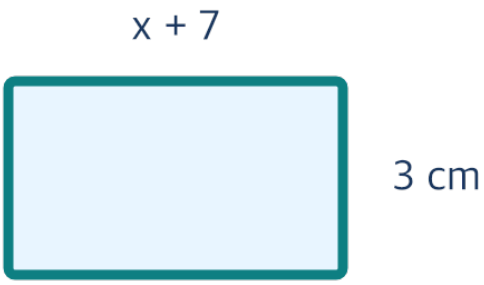

So the area is 2x + 14 cm^2.

SB1

The area is 48 cm^2. Find x.

Answer:

$x = 9$

Working:

Area = length × width

$3(x + 7) = 48$

$x + 7 = 48 \div 3$

$x + 7 = 16$

$x = 16 - 7$

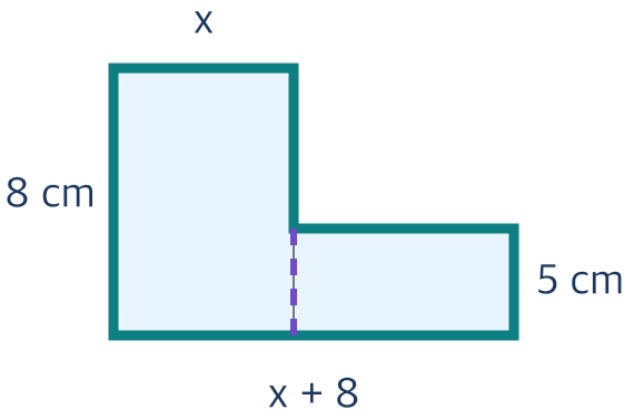

$x = 9$

SC1

The total area is 88 cm^2. Find x.

Answer:

$x = 6$

Working:

Split the shape into two rectangles.

Bottom area = 5(x + 8) = 5x + 40

Upper area = 3x

Total area = 8x + 40

$8x + 40 = 88$

$8x = 48$

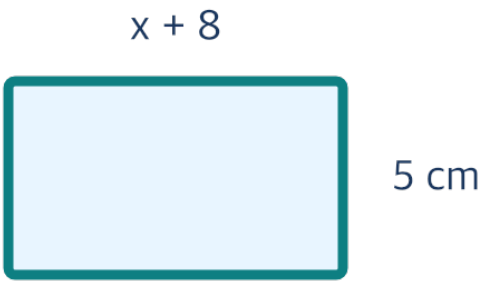

$x = 6$

GEO-D993-L3 · Student pages 1-3. Print at 100%, single-sided. Cut on dashed lines.

SD1

Write and simplify an expression for the area.

Answer:

$5x + 40$ cm^2

Working:

Area = length × width

Area = 5(x + 8)

Area = 5x + 5 × 8

Area = 5x + 40

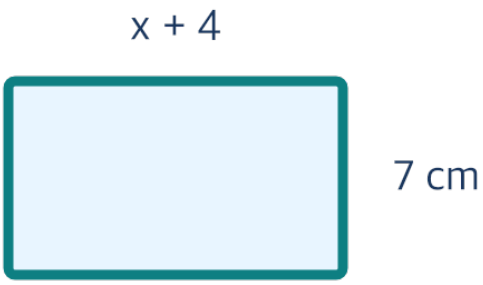

So the area is 5x + 40 cm^2.

EA1

The area is 56 cm^2. Find x.

Answer:

$x = 4$

Working:

Area = length × width

$7(x + 4) = 56$

$x + 4 = 56 \div 7$

$x + 4 = 8$

$x = 8 - 4$

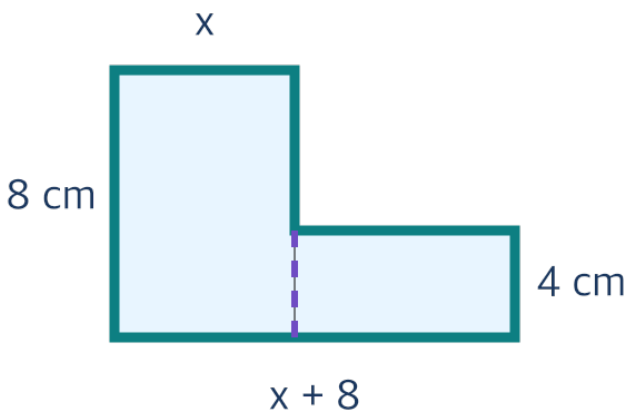

$x = 4$

EB1

Write and simplify an expression for the total area.

Answer:

$8x + 32\ cm^2$

Working:

Split the shape into two rectangles.

Bottom area = 4(x + 8) = 4x + 32

Upper area = 4x

Total area = 4x + 32 + 4x

Total area = 8x + 32

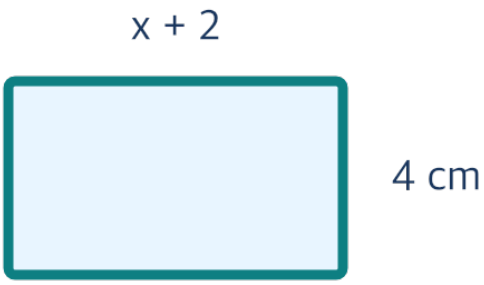

So the area is 8x + 32 cm^2.

GEO-D993-L3 · Student pages 1-3. Print at 100%, single-sided. Cut on dashed lines.

EC1

Write and simplify an expression for the area.

Answer:

$4x + 8\ \text{cm}^2$

Working:

Area = length × width

Area = 4(x + 2)

Area = 4x + 4 × 2

Area = 4x + 8

So the area is 4x + 8 cm^2.
