Teacher answers & working

Averages, Range and Missing Values · Individual Measures

STA-BC9A-L1 · Student pages 1-2. Print at 100%, single-sided. Cut on dashed lines.

S1

Find the mean of: 13 1 6 6

Answer:

6.5

Working:

Step 1: Add all values in the data set

$13 + 1 + 6 + 6 = 26$

Step 2: Divide the sum by the number of values

Mean = $\frac{26}{4}$ = 6.5

The calculation shows that: The mean represents the average value when all data points are distributed equally.

S2

Find the median of: 16 22 21 15 20

Answer:

20

Working:

Step 1: Arrange the data in ascending order

Original: 16 22 21 15 20

Ordered: 15 16 20 21 22

Step 2: The median is found by identifying the middle position

Position 3 of 5 values: 20

S3

Find the mode of: 10 3 9 7 3 15 14

Answer:

3

Working:

Step 1: Count the frequency of each value

Data set: 10 3 9 7 3 15 14

3 appears 2 times

7 appears 1 time

9 appears 1 time

10 appears 1 time

14 appears 1 time

15 appears 1 time

Step 2: Identify the most frequently occurring value(s)

Mode: 3

S4

Find the range of: 19 15 19 20 18 16

Answer:

5

Working:

Step 1: Identify the highest and lowest values

Data set: 19 15 19 20 18 16

Highest value: 20

Lowest value: 15

Step 2: Calculate the difference

Range = 20 - 15 = 5

E1

Find the mean of: 8 24 11 23

Answer:

16.5

Working:

Step 1: Add all values in the data set

$8 + 24 + 11 + 23 = 66$

Step 2: Divide the sum by the number of values

Mean = $\frac{66}{4}$ = 16.5

The calculation shows that: The mean represents the average value when all data points are distributed equally.

E2

Find the median of: 3 12 6 24 5

Answer:

6

Working:

Step 1: Arrange the data in ascending order

Original: 3 12 6 24 5

Ordered: 3 5 6 12 24

Step 2: The median is found by identifying the middle position

Position 3 of 5 values: 6

E3

Find the mode of: 15 12 4 15 9 2 15 10

Answer:

15

Working:

Step 1: Count the frequency of each value

Data set: 15 12 4 15 9 2 15 10

2 appears 1 time

4 appears 1 time

9 appears 1 time

10 appears 1 time

12 appears 1 time

15 appears 3 times

Step 2: Identify the most frequently occurring value(s)

Mode: 15
